For more information on this product, please visit www.aism.lu or call +352 27 85 47 1.

This product is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier.

Information as of: 28 July 2026.

What is this product?

Type

This product is a share of an investment company qualifying as an undertaking for collective investments in transferable securities (UCITS).

Objectives

Investment objective

The objective of the compartment is to offer investors equity portfolio returns across a business cycle, by investing in stocks and integrating environmental, social and governance ("ESG") considerations, while keeping the volatility in line with the long-term average of the asset class.

Investment policy

The compartment combines a Top-Down (macroeconomic analysis of geography, market cap allocation and sectors) and Bottom-Up (quantitative and fundamental analysis of stocks and industries) approach, without systematic sector bias. Indicatively, at least 50% of net assets are invested in large/mega-cap stocks, up to 50% in mid-caps, with small caps only ancillary. At least 50% is invested in North American equities. Market cap ranges: Mega Cap > USD 100bn; Large Cap USD 30–100bn; Mid Cap USD 2–30bn; Small Cap < USD 2bn.

Exposure to non-developed markets is residual (max 10%), through direct or indirect investments. Target investments are mainly denominated in USD and EUR, with average USD exposure ~70% (minimum 50%). The compartment may invest up to 10% in eligible UCITS/UCIs (daily liquidity, no leverage) and up to 40% in short-term U.S or other Developed Market governments bonds (<12 months). ADRs and GDRs are also permitted.

On an ancillary basis, the compartment may invest in short-term liquid instruments (bonds <12 months, money market funds/instruments, listed assets). It may also hold up to 20% in liquid assets (cash, deposits) for operations, pending investments or adverse market conditions, with temporary excesses allowed in exceptional circumstances, in the best interests of investors.

Intended Investors

This share class is intended for investors who are interested in achieving a net positive performance, can afford to set aside their capital for at least 3 years, are willing and able to accept meaningful temporary losses, and have experience with the risks and rewards of investing in equities.

Other information

Depositary bank: CACEIS Bank, Luxembourg Branch.

Class type: this class is a capitalization class, meaning that income is reinvested.

Conversion right: the investor has the right to convert his investment in shares in one sub-fund for shares in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: the assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

Additional information: a copy of the Prospectus and the latest annual and semi-annual financial reports in English, as well as the latest net asset value per share and the subscription and redemption prices, are available free of charge upon request from the management company or on the website www.aism.lu.

What are the risks and what could I get in return?

The actual risk may vary significantly if you disinvest at an early stage and the amount reimbursed could be lower. This product does not include any protection against future market performance; you could lose part or all of your investment. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to meet our financial commitments.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect the amount you receive. What you will get from this product depends on future market performance. Future market developments are uncertain and cannot be predicted precisely.

The unfavourable, moderate and favourable scenarios shown are illustrations based on the worst and best performance of the product, as well as its average performance over the past 10 years. In the future, markets could evolve very differently. The stress scenario shows what you could get in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between December 2019 and December 2022.

Moderate: this type of scenario occurred for an investment between April 2022 and April 2025.

Favourable: this type of scenario occurred for an investment between December 2018 and December 2021.

Recommended holding period: 3 years.

Example of investment of 50,000 USD

Scenarios		1 year	3 years
Minimum	There is no guaranteed minimum return. You could lose part or all of your investment.		
Stressed	What you might get back after costs	20,164 USD	20,089 USD
	Average annual return	-59.67%	-26.21%
Unfavourable	What you might get back after costs	36,364 USD	46,877 USD
	Average annual return	-27.27%	-2.13%
Moderate	What you might get back after costs	55,154 USD	58,433 USD
	Average annual return	10.31%	5.33%
Favourable	What you might get back after costs	70,796 USD	80,692 USD
	Average annual return	41.59%	17.30%

What happens if AISM Luxembourg S.A. is unable to pay out?

In the event of the insolvency of AISM Luxembourg S.A., the fund's assets, held in custody with the depositary bank, will be liquidated by the latter and the proceeds distributed to investors. The depositary bank is legally required to segregate its own assets from those of the fund. Therefore, in the event of the insolvency of the depositary bank, the risk of financial loss to the product is mitigated. No compensation scheme or investor guarantee system is in place to cover any losses.

What are the costs?

The person selling you or advising you about this product may charge you additional costs. If this is the case, that person will inform you about these costs and show you the impact on your investment.

We have classified this product as 5 out of 7, which is medium. In other words, the potential losses linked to future performance are at medium level and, if the market situation were to deteriorate, the ability of AISM Luxembourg S.A. to make payments could be adversely affected.

Be aware of currency risk. The amounts you will receive will be denominated in a different currency, so the final return you obtain will depend on the exchange rate between the two currencies. This risk is not taken into account in the above indicator.

In addition to the risks included in the summary risk indicator, other risks may affect the fund's performance. Please refer to the fund Prospectus, available free of charge on the website www.aism.lu.

The tables show the amounts taken from your investment to cover different types of costs. These amounts depend on the size of your investment and the holding period of the product. The amounts shown here are for illustration purposes only and are based on an assumed investment amount and different possible investment periods.

The following assumptions have been made:

- in the first year, the invested amount is recovered (annual return of 0%). For the other holding periods, it is assumed that the product performs in line with the moderate scenario;
- 50.000 USD of investment.

	If you exit after 1 year	If you exit after 3 years
Total costs	1,105 USD	3,443 USD
RIY*	2.21%	2.24%

*How costs impact the annual return during the holding period. For example, if you exit at the end of the recommended holding period, the average annual return is expected to be 5.33% before deduction of costs and 3.09% after deduction of costs.

Composition of costs

One-off entry or exit costs			Annual cost impact if you exit after 1 year
Entry fees	0.00%	No entry costs are charged.	0 USD
Exit fees	0.00%	No exit costs are charged.	0 USD
Recurring annual costs			Annual cost impact if you exit after 1 year
Management fees and other administrative costs	1.51%	This is an estimate based on the actual costs incurred last year for this product or for a similar product.	757 USD
Transaction costs	0.04%	This is an estimate of the costs incurred when buying and selling the underlying investments. The actual amount will vary depending on how much is bought and sold.	18 USD
Incidental costs taken under certain conditions			Annual cost impact if you exit after 1 year
Performance fees	0.66%	Annual performance fee of this share class above the High Water Mark. The actual amount will depend on the performance of your investment. The aggregated cost estimate shown above includes the average over the last 5 years.	331 USD

How long should I hold it and can I take money out early?

Recommended holding period: 3 years.

This product is intended for longer-term investments; you should be prepared to hold it for at least 3 years. However, you can redeem your investment without penalty at any time during this period or keep it longer.

How can I complain?

If you have complaints about the product, the conduct of the manufacturer, or the person who advised on or sold this product, you can use different communication channels: by e-mail to info@aism.lu, by letter to AISM S.A., 21, rue Aldringen, L-1118 Luxembourg, or by telephone at +352 27 85 47 1.

In all cases, the complainant must clearly indicate their contact details (name, address, telephone number or e-mail address) and provide a brief description of the complaint. Further information is available on our website www.aism.lu.

Other relevant information?

The charges applicable to the investments may vary depending on the distributor and the amount invested. Subscription, redemption and, where applicable, conversion fees may apply in accordance with the Prospectus. Please refer to the Prospectus and contact your distributor for further information. The calculations relating to costs, performance and risks included in this key information document follow the methodology prescribed by EU regulations. Please note that the performance scenarios shown above are based exclusively on the product's past performance or on an appropriate benchmark, and that such past performance is not a reliable indicator of future returns. As a result, your investment may carry risks and you may not get back the returns indicated. Investors should not base their investment decisions solely on the scenarios presented.

Previous performance scenarios, updated monthly, and past performance over the last 3 years are available on the website www.aism.lu.

The updated versions of the Prospectus and of this KID, The net asset value per share, the latest annual and semi-annual reports of the fund, together with other information relating to the product, are available on the website www.aism.lu.
